

Millers Falls

HARDWARE & TOOLS CATALOGUE

The Millers Falls Hardware & Tools range reflects the rich Millers Falls DNA history with a focus on quality products at value for money prices.

TWM

2022

The Millers Falls brand which has a long history of innovation and quality tools was established in 1868 as the Millers Falls Manufacturing Co. They developed the first bit braces and wooden handle tool holders with interchangeable bits. Over the many years they expanded into shop machines, including table saws, scroll saws, lathes, drill presses, sanders, and bench grinders. The history of this brand is now over 150 years.

Millers Falls is recognised as one of the world's longest surviving tool and equipment brands.

Millers Falls

TWM Imports continue to develop and distribute the Millers Falls range of tools and equipment.

Established in 1993 TWM Imports and distributes a range of industrial equipment through national distribution channels. TWM Imports' success can be attributed to its continual product development and working closely with its long-term trading partners and relevant industry specialist customers. Today TWM supports more than 2,000 customers throughout Australia across a number of sectors including: Hardware, Home and Garden, Vehicle Parts & Accessories, Farm & Construction Equipment, Workshop Equipment, Materials Handling Equipment and Forestry Equipment.

In September 2020 the business was sold and is currently under new ownership with a renewed focus on product development and customer service.
